

Smart Nameplate®

Smart Nameplates® are ideal for permanent identification and asset management. This durable, pressure sensitive film product withstands harsh environments to enable inlay longevity and multiple programming to reduce overall costs.

This construction allows for the combination of unmatched versatility backed by exceptional durability. The nameplates are flexible enough to adhere to rigid surfaces, but thick enough to withstand the harshest conditions.

Features & Benefits

- Designed to withstand weather, temperature, abrasion or exposure to harsh chemicals
- Improve accuracy and efficiency in data collection processes for many activities including supply chain management, logistics tracking and point-of-sale
- Product meets printer manufacturer specifications

Specifications

Available Sizes: 4"x1", 4"x2", 4"x4", 3"x1" standards.
Custom sizes available

Standard Service Temperature Range: -40° F to +350° F

Frequencies: 915 MHz

Presentation Format: Rolls (perfed or non-perfed)

Versions: Available as Durable Premium, All Purpose and Industrial

Available with multiple colors and graphics

Applications: Container, pallet and rack tracking
