

Rack Loading Signs

Featuring
HOLD & RELEASE® technology

Change labels quick, clean and easy

PLACE LABEL HERE

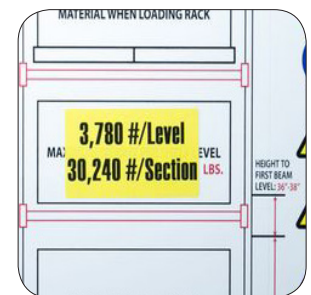

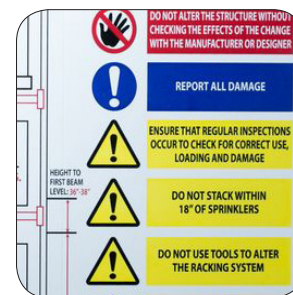

Rack Loading Signs promote and facilitate a safe warehouse environment. The Kennedy Group's Rack Loading Signs can be customized to communicate vital racking and shelving information, including OSHA safety guidelines, load limits, and inspection information, as well as identification labels for rack and shelving contents.

Designed with two information panels, a Rack Loading Sign's first panel, on the left side of the sign, includes safety, load capacity, storage, and handling procedure information. The second panel, on the right side of the sign, with our proprietary Hold and Release® technology, allows for customized, easily replaced labels and identification markers to identify storage content.

Benefits of The Kennedy Group's Rack Loading Signs

- Easy reconfiguration and customization of labels and identification markers
- Simple, easy-to-use labeling system
- OSHA rack and shelving structural safety and storage guidelines
- Compliance with multiple rack and shelving manufacturers' specifications
- Maximum load safety warnings on all racks and shelves

Applications

- Warehouse Beams
- Pallet Racking
- Mezzanine Floors
- Shelving and Bays
- Cantilever Racking

The Original Placard Label Holder, featuring **Hold & Release Technology®**, allows labels to be easily applied and removed hundreds of times with minimal surface degradation. This innovative product line – ideal for reusable packaging, racks and shelving – is available in multiple sizes, styles, grades, and colors. With a 99.999% success rate, it is the only labeling system in the industry guaranteed to perform. Ask us about warranties on select products. Kennedy Group materials undergo independent testing, including removability and durability, surface testing, QUV weathering, extreme temperatures, and wash cycles. Anything Less Means Risking More.
